

**MOVE GROWTH.
MOVE WATER.
MOVE THE FUTURE.**

Engineering Executive Kuala Lumpur, Malaysia

Major movements like globalisation, digitalisation and energy shortages shape some of our largest future challenges. Challenges that we are happy to accept and dive into. We understand the trends that influence our company and our business and act accordingly. By developing products and solutions we move not only water, we also move the future for people all over the world. As a pioneer in the pump industry we focus as much on our employees as on our high quality pumps. Those of you who want to be part of the Wilo will experience a constant flow of personal and organizational development as well as sufficient space for the implementation of own ideas. At Wilo you will move the future, for yourself and for others.

In this role, you will support the Project Manager in the SEA Operations team by taking care of the engineering aspects of the products. Understand customer needs and sales requirements to provide the compatible product solution. Contribute towards providing the drawings according to the project specifications and perform the necessary activities to execute orders to the assembly platform orders.

Your Tasks:

- Preparation of General Arrangement drawing and cross-section drawing for the pump, pump sets and Systems
- Technical Validation of Purchase Orders to Platform (Pump sets & Boosters)
- Compilation of Technical Library for Platform Products
- Creation of BOM for Platform Products
- Article number database management
- Assist in co-ordination and execution in Platform orders.
- Participate in the new product development
- Assist in proposal preparation and costing exercises of platform activities.
- Understanding the application of pumping systems and related control systems
- Be an integral part within project cycle of pump system projects from planning to execution

Your Profile:

- Bachelor's degree in Engineering preferential (Mechanical, Mechatronics, Chemical, Electrical & Electronics)
- 0-2 years of work experience
- Microsoft Office & CAD Skills 2D Mandatory, 3D Modelling Advantage
- English & Chinese (Written & Spoken); Bahasa (Spoken)
- Works well with people, is flexible and still detailed and meticulous with work
