ENVIRONMENTAL POLICY STATEMENT

The Managing Director is committed to providing customers with products processed in Environmentally efficient premises with a commitment to contributing to saving the environment. The Managing Director has reviewed all Company operations and processes against the requirements of ISO 14001 and follows the general principles of environmental management systems given in ISO 14001 by implementing the following:

The Managing Director is committed to continually enhancing the environmental management system to achieve improvements in the overall environmental performance of the Company.

The Managing Director is committed to use best practice and processes and the efficient use of resources that will reduce or prevent pollution of any kind.

The Managing Director will comply with applicable legal requirements and any other relevant requirements related to the environment.

When required, provide new plant, equipment and vehicles with an improved environmental performance over that which it replaces.

Where possible introduce waste management systems that minimize waste by re-use, re-cycling and safe disposal.

Review environmental management systems within the Company during the annual management review meeting.

Set Company environmental objectives / targets and review them during the annual management meeting using a framework based on a risk review of applicable context issues, applicable interested parties, and any significant environmental aspects identified.

Make this policy statement available to all Employees and the public via publication in this document and the company website.
